Commissioner for Patents

This letter is in response to applicants' response, filed 10/21/05, to the notice of drawing inconsistency with the specification. Applicants may disregard the notice, dated 9/23/05, to correct the drawing inconsistency with the specification. It has been determined by the office that the drawing, documented on 9/24/03, is not related to any part of the disclosure of the application. However, it appears that the drawing belonged to prior art reference PCT WO 03/040065 A2. Therefore the drawing will be included along with the prior art documents and will not be included in the published patent. Applicants need not reply to this communication.
